

Nordic Handcraft Workshop Materials List

Designing Paper Flowers with Yuka Petz

May 26, 2022

Students should provide the following items for class:

- Images of the flower you would like to create. Try to collect photos that show the flower from many angles.
- 15-20 sheets of printer paper, construction paper, or other inexpensive paper.
- Paper for your flower. This could be decorative paper, recycled, old maps or book pages, or almost any paper you would like to use for your flower. (You can make lovely flowers with simple, white printer paper so you need not feel pressed to purchase expensive decorative papers.)
- Scissors
- Tape (Scotch tape is ok, but painter's tape, washi tape, artist's tape, or another low-tack tape is highly recommended)
- Glue stick
- Elmers, PVA or other white glue

The following items are optional, but may be useful if you have them on hand:

- Bonefolder
- Olfa knife with snap off blades or X-acto knife
- Metal ruler (12"-24")
- Self-healing cutting mat

A pdf handout will be shared the week before class with additional instructions and resources.

Please contact ASI Food and Handcraft Programs (foodhandcraft@asimn.org) with any questions.
